

# ONGOING CALL FOR APPLICATIONS.

## TERMS OF ENTRY

### Terms of the call for applications

eremuak, is an open Basque Government programme for the production of context in contemporary art. The main purpose of eremuak is to offer a platform for artists and creators, to promote a climate of debate, and encourage meetings, as well as to provide a workplace that functions as an observatory of contemporary art.

eremuak carries out actions that help to encourage, optimise, and/or improve the contexts in which the contemporary art debate takes place in the Basque Country.

Given that eremuak revolves around systemic sensitivity and its open nature, the development of local context is also understood to involve its place in a global context. As a result, eremuak is calling for **proposals from the Basque Country, about the Basque Country or for the Basque Country.**

All natural persons and legal entities with residence for tax purposes in the European Union may participate in the call for submissions.

In addition, various natural persons and legal entities may participate in the call for submissions together, without any requirement to formalise their relationship. In this case, they must designate or identify a natural person to act as the project's representative for all purposes before CENTRO INTERNACIONAL DE CULTURA CONTEMPORÁNEA, S.A. (hereafter, 'Tabakalera').

## Terms of entry

The Committee will judge and assess any proposals which are submitted provided that they adhere to the following **conditions**:

1. The production requirements and conditions of the projects that have been selected shall be agreed contractually in each case; they do not necessarily have to be the same for all, but instead tailored to the realities and needs of each specific project. Once these have been determined, the general administration of this section will be carried out by Tabakalera, managing entity of the program will be handling contacts, payments, requests for documentation, implementation of timeframes and general organisational matters.

2. **Selection criteria:**

As the main goal is to **produce a contemporary context** through an open programme, the selection criteria will be deduced from any potential relationships that the Committee may establish depending

on the interest and opportunity of the work, lines of research or how the project relates with other proposals submitted by the different participants and / or representatives.

Although there is still a possibility of submitting proposals for the production of work (specific projects, presentations, publications, etc.), **it is vital that the project has some kind of repercussion on a local level, e.g. public exhibition or presentation of work and its socialisation within the Basque context**, regardless of whether or not the project is devised and developed in the Basque Country. Proposals must therefore cover both the realisation of the work and the specific conditions for presentation (location or headquarters used for display, dates, etc.).

### 3. Funding

The value of each grant will depend on the Committee's assessment of the amount requested.

Grant funding is intended to cover expenses directly related to the proposals and must be duly justified in the corresponding supporting evidence. VAT applicable to any aspect of the expenses will be included in the grant.

The value of expenses related to the participants' own fees will be subject to the Committee's assessment of the proposal.

4. Any decisions made by the Committee will be final and it shall have the power to consolidate, break up or redistribute grants if the interest of the project, implementing budget, low turnout or any other relevant issue justifies such a decision.
5. The selected participants and/or representatives may be required for attend an interview with the Commission if necessary.
6. eremuak does not take into account previous classifications, which means that there are no restrictions or preferences with regards to the various practices that are found in contemporary art. Through the choices it makes, the Committee is responsible for reflecting the various proposals and production of contemporary art in our region.
7. As a token of its commitment to the participants and/or representatives, eremuak shall provide a financial award to each of the proposals selected by the Committee as per the terms agreed in each case.
8. Each project must be completed within the time frame agreed with the Committee. The maximum time frame for undertaking and completing the project will be 2 years starting from the date on which the result of the call is announced.
9. Each party must pay the relevant taxes in accordance with current regulations in Spain. If appropriate, Tabakalera will carry out a tax withholding on the grant funding provided.
